

HARLEY-DAVIDSON® SATIN MOTORCYCLE ROTORS

Wilwood's Satin and Black Satin finish stainless steel rotors for Harley-Davidson® motorcycles combine the ultimate in performance and distinctive style for production bikes and full customs using Original Equipment dimension brake components.

Kit Features

- Precision ground to exact tolerances from premium alloy stainless steel for true running and satin smooth braking
- Direct Original Equipment dimensional replacements covering models beginning in 1984
- Choice of brushed natural Satin Stainless or Black Satin e-coat finish
- Compatible with all types of organic and metallic formula brake pad compounds
- Use with Original Equipment factory calipers or Wilwood GP Series 4 piston caliper upgrades
