

MINI-SPRINT FRONT ROTOR AND BRAKE COMBINATION

Wilwood's Mini-Sprint front brake combination is an ultimate lightweight package delivering high response and long service life. Every part is built using competition proven materials with unsurpassed precision and superior design.

Component Features

- Specifically designed for Keizer hubs with 5 x 2.38" mount circle
- 7" diameter, .25" thick, premium alloy, heat treated, anodized, drilled and scalloped aluminum rotor weighs only 9.6 ounces
- GP200 machined billet caliper weighs only 14.5 ounces and features a durable anodized finish, stainless steel pistons, and controlled retraction seals
- Special aluminum compound "Purple Pads" provide positive response at all temperatures, long wear, with full compatibility to the aluminum rotor

ORDERING INFORMATION:

ITEM	PART NUMBER	ITEM DESCRIPTION
Rotor	160-13712	Rotor, 7.00" x .25", 5 x 2.38" Mount Circle, Aluminum, Drilled and Scalloped
Caliper	120-12178	Caliper, GP200, Billet Aluminum, 1.25" Stainless Pistons, 2.38" Lug Mount
Brake Pads	150-12270K	Brake Pads, GP200, 4908-Purple Aluminum Compound, Box of 4
