

**DYNAPRO DRAG RACE FRONT
BRAKE KITS** use Wilwood's
lightweight dynamic
mount floating rotor
system to eliminate
rotor distortion and
speed-robbing drag
during repeated
high-heat stops
on high-MPH,
full-body drag
race-only vehicles.

KIT FEATURES

- DynaPro four piston lug mount calipers and brackets mount directly to the OE spindles
- High-response, fade-resistant BP-20 compound *SmartPads*
- Controlled pad release and flatter rotors reduce drag
- Floating rotors eliminate distortion that occurs with fixed mount rotors after repeated high heat cycles
- Drilled steel alloy rotors weigh only 4.7 pounds each
- Hard-coat anodized aluminum rotor mount plates with t-nuts
- Lightweight forged aluminum hubs with extended length 1/2-20 grade 8 wheel studs
- Complete kits include all new wheel bearings, hub seals and premium grade hardware
- Braided stainless steel DOT-type flexlines available separately

Note: Check www.wilwood.com for complete year/make/model application data and specific wheel clearance requirements.
