

### Superlite 4R Rear Brake

kits for 1988-1996 C4 Corvette rear axles offer two performance-level configurations for high-capacity braking on the street, slalom, or track. Ideal for both production chassis Corvettes or custom vehicles built using an adapted C4 rear suspension.

## KIT FEATURES

- Superlite four piston radial mount forged aluminum calipers with stainless steel pistons
- Choice of kits with or without MC4 parking brake calipers
- Dual-sport street and track kits w/parking brakes include powder coat calipers, BP-10 *SmartPads* and 12.88" x .81" thick rotors
- Race kits without parking brakes include hard-anodized calipers, BP-30 *SmartPads* and 12.88" x 1.10" thick *Spec37* GT rotors
- Two-piece rotor mounting with weight-saving aluminum hats
- Fully compatible with the OE master cylinder output and ABS on production chassis vehicles
- Easily configured with other power brake or manual pedals on custom-built vehicles using an adapted rear C4 suspension
- DOT-approved braided stainless steel flexlines are available and may be ordered separately
- Easy to follow, step-by-step detailed instructions included

Note: Check [www.wilwood.com](http://www.wilwood.com) for complete year/make/model application data and specific wheel clearance requirements.
