

**FOR IMMEDIATE RELEASE:**

**Wilwood's new high performance brake kit for 1965-1967 Sunbeam Tigers**

**Camarillo, CA December 14, 2010**

Wilwood engineering has recently introduced a high performance front brake kit for the historic 1965 –1967 Sunbeam Tiger that features Big Brake technology. This track-tested kit will not only provide better street performance, it will really make a huge improvement over the original brakes on the track where consistency counts. The complete brake kit is also lighter than the original brakes so a handling improvement will also be a benefit received from the changeover. The kit is part number [140-11743](#) and it features Dynapro calipers with lightweight two-piece 11.75-inch vented rotors connected to a special aluminum hub adapter. The complete kit comes with the aluminum hubs, Dynapro calipers, aluminum rotor adapter, 11.75-inch vented rotors, caliper brackets, BP-10 Smart Pads and all of the hardware required to finish the installation. The kit comes with black calipers and standard rotors for the ultimate in stopping power. This kit will not only allow your Tiger to stop quickly it is also an appearance enhancement. Since this kit is featuring large 11.75-inch rotors, 15-inch wheels are required.

Wilwood performance brake kits are loaded with cutting edge technology built on years of domination in world motorsports and are engineered for easy bolt-on installation. Wilwood's Big Brake Kits are designed to meet the high performance demands of today's tire, wheel and suspension technology.
