

FOR IMMEDIATE RELEASE:

Wilwood Disc Brakes Announces New GM AFX Body 2" Drop ProSpindles and Disc Brake Kits

Camarillo, CA • June 2020

Wilwood has announced the release of their new 2" drop ProSpindle for the popular 60's and 70's General Motors A, F, and X body muscle cars. The ProSpindles are a tall-body design that lowers stance and gravity center height, while producing a higher front roll center with reduced camber change to improve handling and reduce body roll during cornering.

A unique caliper mounting feature provides fortified attachment of four new brake kit options ranging in rotor sizes from 11.00" to 14.00" diameters, with options for both four and six piston calipers. The spindles mount with OE ball joints in stock or aftermarket control arms, and retain the original bolt-on steering arms.

MSRP starts at \$269.94.
