

**FOR IMMEDIATE RELEASE:**

## **Wilwood Disc Brakes Releases Direct Replacement Calipers for Classic Ford Mustangs**

**Camarillo, CA • May 2022**

Wilwood now offers upgraded direct replacement calipers for 1965-67 Ford Mustang, Fairlane, and 1966-67 Ranchero originally equipped with Kelsey-Hayes brakes. These rigid aluminum calipers perfectly replace the stock units and work with any factory-style rotor and brake pad. These D11 calipers are also available as a complete kit with Wilwood premium rotors, pads, and flexlines.

New lightweight four piston Wilwood calipers weigh half than the original iron units, with a forged aluminum body and stainless steel pistons. Engineered with internal crossovers instead of the external lines found on the originals, which break, leak, or rust with time. Available in Type III Hard Anod with a stock-look finish, or gloss black or red powder coat. Calipers and kits are compatible with Wilwood or original-style master cylinders and maintain the factory front/rear brake bias.

MSRP starts at: \$303.11

MSRP starts at: \$646.79

MSRP starts at: \$1,069.59
