

FORD BRONCO • 1976-1977 D8-4 CALIPER FRONT BRAKE KITS

D8-4 Caliper Front Brake Kits

for Dana 44 axle-equipped Broncos provide big brake stopping power and rugged durability to compliment wheel, tire and suspension upgrades for all types of highway driving, off-road and customized applications.

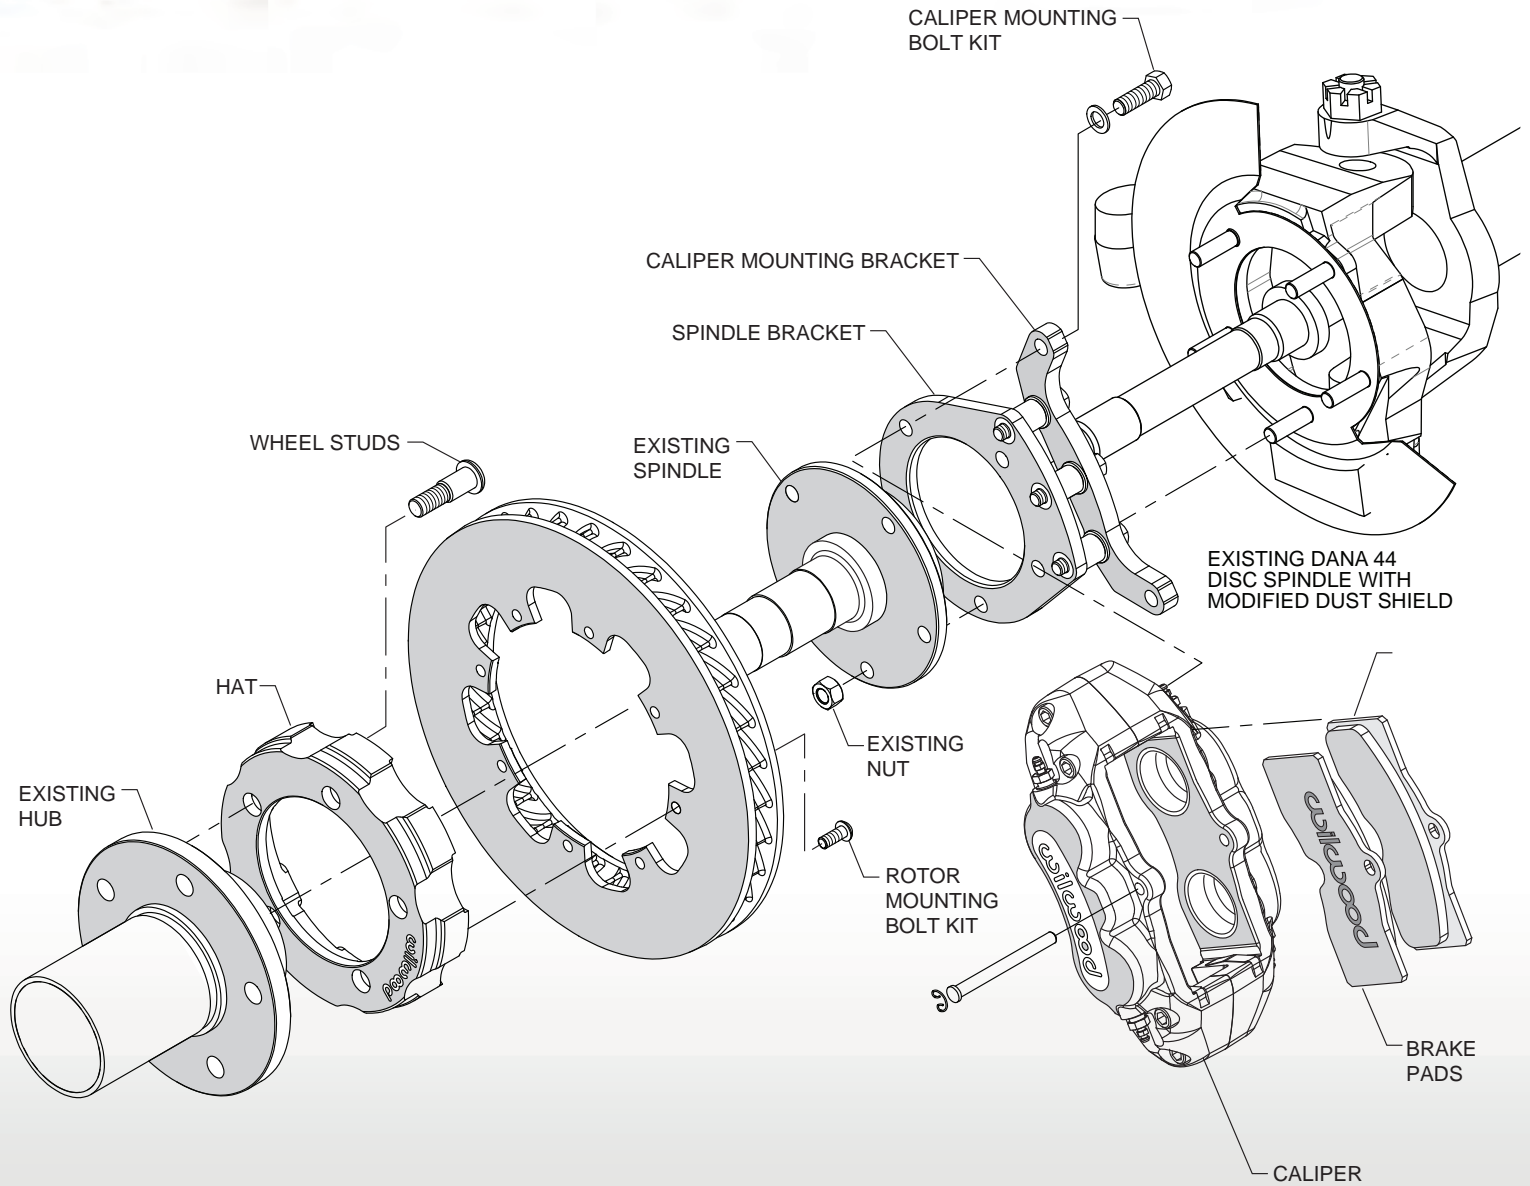

Kit Features

- D8-4 forged aluminum four piston calipers with stainless steel pistons
- 12.19" diameter ULHP-32 directional vane certified alloy carbon iron rotors
- Aluminum hats for mounting rotors to the OE factory hubs
- ProMatrix Dual-Sport high performance, easy maintenance street and off-road compound FMSI type D8 pads
- DOT approved stainless steel braided flexlines with protective outer jacket and adapter fittings connect from axle line to calipers
- Calipers available with choice of gloss red or black powder coat
- All-inclusive kit with new wheel studs, brackets and hardware
- Kits include a detailed guide with step-by-step instructions including minor modifications to the OE dust shield backing plates

Note: Wilwood always recommends checking www.wilwood.com for complete year/make/model application data and specific wheel clearance requirements
