

TACTICAL XTREME TX6R 2021-22 RAM 1500 TRX SIX PISTON BIG BRAKE KITS

Wilwood has big brake packages to reign in the most popular and powerful performance trucks, including the supercharged TRX.

Bolt-on brake kits replace OEM twin piston sliding calipers with Wilwood rigid forged aluminum **TX6R** six piston calipers. Rotors over an inch larger in diameter provide increased brake torque and thermal capacity.

Designed to fit most 20" and larger wheels on the Ram 1500 TRX for desert pre-running, mountain driving, hauling, towing, and highway use.

KIT FEATURES:

- Same Wilwood components used on tactical armored vehicles up to 14,000 lbs GVWR
- Greater brake torque and more thermal stability from larger rotors; stainless steel pistons; large pad volume

CALIPERS: TX6R

- Stress-flow forged aluminum Tactical Xtreme TX6R calipers with reinforced end bridges for increased rigidity
- Six pistons with differential bores for smoother engagement and even pad wear
- Volume-matched to be fully compatible with the factory master cylinder, ABS and all electronic controls
- Available powder coated in gloss black or red; 22 other color options available (additional charges apply)

ROTORS: GT SLOTTED

- Big 16.00" x 1.38" military-grade **Spec37** iron alloy rotors
- Shed heat quickly with 60 curved internal vanes expelling hot air
- Black E-coat protection with GT slotted face

BRAKE PADS: BP-Q

- Fade-resistant **SmartPad** BP-Q compound brake pads included (additional compounds available)

INSTALLATION PARTS:

- Stainless steel Flexlines and premium-grade hardware included
