

**FOR IMMEDIATE PRESS RELEASE:  
Wilwood's New Bolt-On Front & Rear Big Brake Kit for Subaru WRX**

**Camarillo, CA May 18,2006**

Wilwood is the only manufacturer with specially designed kits for both the [front](#) and [rear](#) wheels to help this wolf in sheep's clothing stop even better. Massive, race-proven billet aluminum 6 piston Superlite calipers are matched to vented, drilled and slotted 12.9 inch rotors and hats in the front.

The rear kit maintains the stock parking brake and features 4 piston Dynalite calipers squeezing 12.19 inch rotors which are also vented, drilled and slotted. PolyMatrix brake pads are included with each kit to shorten stopping distances, improve handling and eliminate overworked stock components.
