

FOR IMMEDIATE RELEASE:

Wilwood Announces Award Programs for 2017 North American F1000 Championship

Camarillo, CA • March, 2017

Wilwood Disc Brakes is excited to announce new racer reward programs for the 2017 North American Formula 1000 Championship season.

Eligible drivers have three chances to receive contingency. First, the *Tough Brake Award* will go to the fourth place finisher at each event. Second, those fourth place finishers could receive additional contingency – if they run eligible Wilwood products – through the Double Dip Program. Lastly, the *Tenth Man Up Award* will go to the driver that finishes 10th overall in the championship standings.

“Formula 1000 racing has been a great showcase for Wilwood competition disc brake components,” said Steve Cornelius, Director of Sales and Marketing at Wilwood Engineering. “This program is aligned with the philosophy of the series and we look forward to helping educate drivers on the best braking solutions for their race vehicles.”
