

# TM1 Tandem Master Cylinder

Manufactured from durable lightweight aluminum with a large capacity plastic reservoir and dual outlet bores, this master cylinder utilizes standard O.E.M. internal components. Standard factory mounting bolt holes can be adapted to racing pedal assemblies with an optional mounting adapter bracket. This lightweight (less than one pound) reliable master cylinder and unique new design makes it a perfect fit for a wide range of applications.

**TM1 Master Cylinder**

- Compact design is perfect for applications where space is limited. Only 4.5" inches high, body length of 6.0" (total including pushrod 11.5") and a width of 1.8".
- Currently available in 5/8" bore with integral reservoirs
- Side mounts to accommodate 5/16" mounting bolts
- Single sided M10 inlet
- Maximum operating pressure of 1,500 PSI.
- Includes pushrod, clevis and boot
- DOT 3 and 4 compatible
