

COMPACT TANDEM with INTEGRAL RESERVOIR MASTER CYLINDER

Wilwood's Compact Tandem Integral Reservoir master cylinders provide a stylish, high-performance solution for pressure actuation and fluid control on both manual and power boosted applications, especially when space is limited.

- High-pressure, lightweight, high-strength, die-cast aluminum body

**Black E-Coat Finish
with Pushrod**

- Compact design with 6.55" overall length from the mounting flange, and 3.03" height from bore center
- Fully captured bellows lid gaskets completely isolate and seal fluid from outside moisture and debris
- Available bore sizes include: 7/8", 15/16", 1", and 1-1/8"
- 7/8" and 15/16" bore models include integral pushrods for manual pedals
- 1" and 1-1/8" bore models available for use with power boosters, or with captured pushrods for manual pedals
- Universal-style slotted hole mounting flange mounts to pedals or boosters with bolt centers from 3.22" to 3.40"
- Two pressure outlets in each circuit can be plumbed from either side
- Choice of Black E-coat or Chrome Powder Coat finish

**Chrome
Powder Coat Finish
without Pushrod**

**Chrome Powder Coat Finish
with Mustang Pushrod**
