

MOPAR 4 BOLT FLANGE MASTER CYLINDERS

Wilwood's Mopar Compact Tandem Master Cylinder combines performance, style, and a four bolt flange for direct mounting on many Mopar cars. Three bore size options provide the correct volume and pressure output for optimal brake performance with Wilwood disc brake kits, OE style disc brakes, and retrofits of pre-1967 drum brake cars to the safety of dual circuits.

CHROME POWDER COAT

1.00" and 1-1/8" Bore
(no push rod, for power brakes)

BLACK E-COAT

15/16" and 1.00" Bore
(shown with push rod)

FEATURES:

- Four bolt flange designed for Dodge and Plymouth A, B, and E-body cars of the muscle car era
- 15/16" or 1.00" bore with pushrod for manual brakes and 1.00" or 1-1/8" for power brakes to tune pedal effort and feel
- Lightweight, high-strength die-cast aluminum master cylinder weighs only 3.25 lbs
- Compact size and shape: 6.55" long from flange, 4.08" wide, and 3.03" tall from the pushrod centerline
- Fully captured bellows lid gasket isolates brake fluid from moisture and seals out all debris
- Fittings included to accommodate 3/8"-24, 1/2"-20, and 9/16"-20 IF brake lines
- Available in gloss black E-coat or chrome powder coat
