

Staggered Rear Brake Kits for Pontiac Firebird & Ventura with Buick/Oldsmobile/Pontiac Differential

Pontiac muscle cars with staggered shocks and the B/O/P 10-bolt differential require a specific brake kit to avoid interference with the shocks, and Wilwood makes it. Based on the rear disc brake kits for other Buick/Oldsmobile/Pontiac axles, the staggered kits fit 1964-71 Firebirds, and 1971 Ventura II, when equipped with the B/O/P non-C-clip axle.

Wilwood's rear kits perfectly complement existing front kits to suit multiple applications. Precisely engineered brackets fit the axle flange with no machining or modifications.

- DynaPro caliper kit with 11.00" x 0.81" rotors allows use of some 14" wheels
- Dyalite caliper kit with 12.19" x 0.81" rotors fits most 15" or larger wheels
- Precision-machined, high-strength brackets engineered specifically for B/O/P 2.75" bearing axle flange
- Forged aluminum four piston calipers reduce deflection for greater clamping force and more even engagement
- Calipers available in gloss black and red powder coat, or 22 additional color options (additional charges may apply)
- Choose 32-vane vented plain face or SRP drilled and slotted rotors
- Hidden internal drum-type parking brake mechanism
- Kits include high-performance, fade-resistant BP-10 **SmartPad** compound brake pads (other compounds available)

Dyalite 12.19" Rear Disc / Drum Kit
[P/N 140-16989 \(B/O/P staggered\)](#)

DynaPro 11.00" Rear Disc / Drum Kit
[P/N 140-16988 \(B/O/P staggered\)](#)

Staggered Rear Brake Kits for Pontiac Firebird & Ventura with Buick/Oldsmobile/Pontiac Differential

DYNAPRO 11.00"

140-16988-DR

DYNALITE 12.19"

140-16989-DR
