

# TACTICAL XTREME TX6R 2014-23 RAM 2500/3500 FRONT & REAR BIG BRAKE KITS

Wilwood has big brake packages to reign in the most popular and powerful performance trucks for many applications.

Bolt-on brake kits replace OE twin-piston sliding calipers with Wilwood's rigid forged aluminum **Tactical Xtreme TX6R** six piston calipers. Rotors over an inch larger in diameter provide increased brake torque and thermal capacity.

Designed to fit most 20" and larger wheels on the Ram 2500 and 3500 trucks for off-roading, hauling, towing, and heavy-duty highway use.

### KIT FEATURES:

- Same Wilwood components used on tactical armored vehicles up to 14,000 lbs GVWR
- Greater brake torque and more thermal stability from larger rotors; stainless steel pistons; large pad volume

### CALIPERS: TX6R

- Stress-flow forged aluminum **Tactical Xtreme TX6R** calipers with reinforced end bridges for increased rigidity
- Six pistons with differential bores for smoother engagement and more even pad wear
- Volume-matched to be fully compatible with the factory master cylinder, ABS and electronic controls
- Available in gloss red or black powder coat, 24 other color options available (additional charges apply)

### ROTORS: GTB SLOTTED

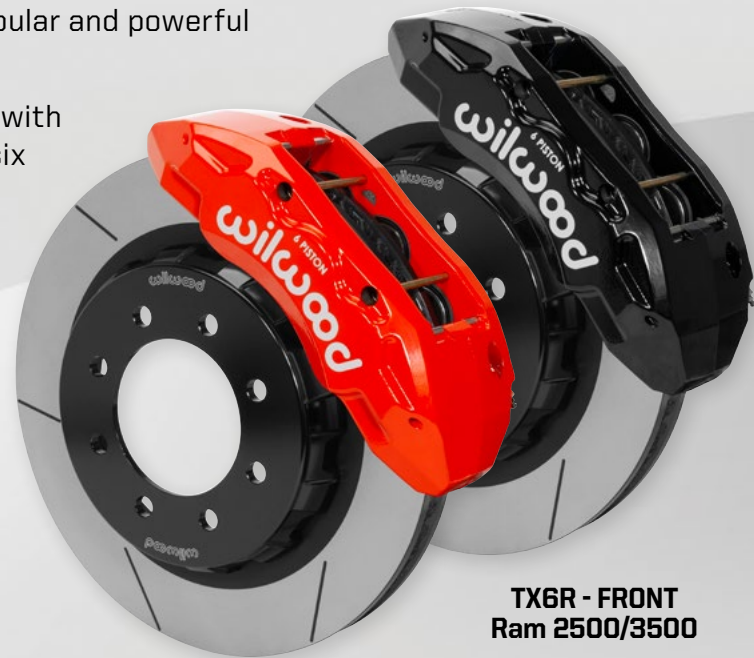

- Big 16.00" military-grade **Spec37** iron alloy rotors
- Shed heat quickly with 60 curved internal vanes expelling hot air
- Black E-coat protection throughout with **GTB** slotted face

### BRAKE PADS: BP-Q

- Fade-resistant **SmartPad BP-Q** compound brake pads included (additional compounds available)

### INSTALLATION PARTS:

- Stainless steel Flexlines and premium-grade hardware included
