

TX6R TACTICAL XTREME 1963-87 CHEVY C10 USING PROSPINDLE

Wilwood has big brake packages to reign in the most popular and powerful trucks of all generations. Enhance your C10 using Wilwood's TX6R big brake kit paired with ProSpindle part number 831-14201 ('63-70) or 831-14202 ('71-87), available separately.

TX6R big brake kits replace OEM single piston sliding calipers with Wilwood rigid forged aluminum six piston calipers. Rotors are much larger in diameter and wider providing increased brake torque and thermal capacity.

Designed to fit most 20" and larger wheels for mountain driving, hauling, towing, and heavy-duty highway use.

KIT FEATURES:

- Same Wilwood components used on tactical armored vehicles up to 14,000 lbs GVWR
- Greater brake torque and more thermal stability from larger rotors; stainless steel pistons; large pad volume

CALIPERS: TX6R

- Stress-flow forged aluminum Tactical Xtreme TX6R calipers with reinforced end bridges for increased rigidity
- Six pistons with differential bores for smoother engagement and even pad wear
- Volume-matched to be fully compatible with the factory master cylinder
- Available powder coated in gloss black or red with many other color options available (additional charges apply)

ROTORS: E-COATED GTB or SRP

- Big 16.00" x 1.38" military-grade **Spec37** iron alloy rotors
- 60 curved internal vanes expell hot air quickly
- Black E-coat protection with GTB slotted or SRP drilled and slotted face

BRAKE PADS: BP-Q

- Fade-resistant **BP-Q** compound brake pads included (additional compounds available)

INSTALLATION PARTS:

- Premium-grade installation hardware included

**Tactical Xtreme Six Piston
