

FOR IMMEDIATE RELEASE:

Wilwood Disc Brakes Releases Updated Hi-Temp 570 DOT 3 Brake Fluid

Camarillo, CA • September 2023

Wilwood Hi-Temp 570 racing brake fluid has been a staple of circle track, road racing, and autocross markets for decades. The new label and packaging update the brand to a fresh, modern look, and the improved DOT 3 rated formula is even better. It has been proven to work, lap after lap, with no loss of braking or increased pedal travel despite severe heat.

A high boiling point is only the beginning. The low viscosity of the DOT 3 rated formula lets the modern car's ABS, electronic stability control systems, and brake-based limited-slip systems react faster. It also makes bleeding the brakes quicker and easier. Hi-Temp 570 also improves resistance to aeration and foaming, which lead to bubble formation. No bubbles means improved pedal feel in severe use.

MSRP: starts at \$15.42
