

FOR IMMEDIATE RELEASE:

Wilwood Disc Brakes Releases Big Brake Kits for Roadster Shop RSF-2 Forged Spindles

Camarillo, CA • March, 2026

Wilwood Disc Brakes has introduced a complete line of front big brake kits specifically engineered for use with the **Roadster Shop RSF-2 Forged 6000** series spindles, delivering race-proven stopping power, precise fitment, and modern styling for today's high-performance street and track builds.

Designed for Roadster Shop **SPEC** and **REVO RS** chassis, as well as custom applications utilizing RSF-2 forged spindles, these new Wilwood brake kits offer a fully bolt-on solution without compromising performance or reliability. Ventilated rotor sizes range from 11.38 to 15.00 inches, available in E-coated **GTB** slotted or **SRP** drilled and slotted, paired with Wilwood performance calipers and **BP-10** brake pads to suit a wide variety of vehicle weights, power levels, and driving styles. A variety of pad compounds are available depending on your application.

Wilwood offers five lightweight, forged aluminum proven caliper choices matched to rotor diameters, starting with the **Dynalite**, then **Dynapro 6**, **Superlite 6**, **Aerolite 6**, and the largest **SX6R**. Features include removable bridge bolts or rigid center bridges for enhanced rigidity, along with race bred design elements that combine performance with contemporary styling. Calipers are available in gloss red or black powder coat, with many optional colors available (additional charges apply). For more information, visit www.wilwood.com.

MSRP: starts at \$1,215.65
