

**FOR IMMEDIATE RELEASE:**

**[Wilwood Disc Brakes Announces New Front Upgrade Brake Kits for the Nissan 350Z / 370Z](#)**

**Camarillo, CA • June 2018**

Wilwood has expanded their brake kit offerings for the 2003-2013 Nissan 350Z and 370Z models with three new performance-level options. The kits are based on the high capacity Aerolite 6R six piston radial mount calipers and 14.00" **Spec37** alloy two-piece aluminum hat mounted rotors.

Caliper model, rotor type, and brake pad compound combinations are built for specific applications including high-performance street, street and slalom, or dedicated track-only competition. These all-inclusive kits offer complete bolt-on installation and compatibility with the factory ABS and master cylinder output. When combined with Wilwood's DynaPro rear brake kit, they provide the ultimate in high-performance braking and contemporary styling.

MSRP starts at \$2,105.59.
