

FOR IMMEDIATE RELEASE:

Wilwood Disc Brakes Releases New Mopar 4 Bolt Tandem Master Cylinder

Camarillo, CA • December 2022

Mopar made some of the most legendary muscle cars, now Wilwood makes a performance master cylinder with a flange specifically for their unique four bolt pattern. The rectangular mounting flange of our Mopar Compact Tandem master cylinder matches the B-body, including Chrysler Cordoba, Dodge Charger, and Plymouth Fury, the A-body, including Dart and Valiant, and the E-body Challenger and Barracuda.

Wilwood offers these Mopar-specific master cylinders in 15/16-inch, 1-inch, or 1-1/8-inch bore sizes compatible with manual and power, drum or disc brakes (drum brake residual valve available separately). The die-cast aluminum master cylinders are available with either a chrome powder coat or black E-coat finish to complement any engine bay. Also offered in kits including our Combo Valve, with an adjustable proportioning valve, hydraulic brake light switch, plumbing, and bracket.

MSRP: starts at \$358.44
