

FOR IMMEDIATE RELEASE

Wilwood Disc Brakes Has Just Introduced Two New Brake Kits for 1953-1962 Corvettes

Camarillo, CA December 14, 2010

Wilwood Engineering has just released two new front disc brake kits for '53-'62 Corvettes. The part number [140-11811](#) front brake kit features Dynalite calipers and 11-inch rotors that allow the use of aftermarket 14-inch wheels to retain the appearance of a restored Corvette. The part number [140-11812](#) front brake kit features Dynalite calipers and 12.19-inch rotors that can be used with Corvettes running 15-inch or larger custom wheels. Both kits can offer a restored appearance while providing the enhanced stopping ability of disc brakes for driving safety. Both kits feature aluminum hub assemblies, Forged Dynalite calipers, aluminum rotor adapter plates, vented rotors in an 11 or 12.19-inch size, caliper brackets, BP-10 Smart pads and all of the hardware required to finish the installation. The kits can be ordered with black or red calipers with standard or drilled and slotted rotors. Wilwood performance brake kits are loaded with cutting edge technology built on years of domination in world motorsports and are engineered for easy bolt-on installation. Wilwood's brake enhancement kits are designed to meet the high performance demands of today's tire, wheel and suspension technology.
