

FOR IMMEDIATE RELEASE:

DynaPro 6 Front Kit for 1994-2004 Factory Five w/Mustang SN95 Spindles

Camarillo, CA, November 1, 2011

Wilwood Engineering has recently introduced a new [DynaPro 6 big brake front kit](#) that features the latest in disc brake technology. These kits are available for Factory Five Roadster/Challenge with Mustang SN95 Spindles. These kits are configured for high performance street or track competition and are compatible with the original equipment master cylinder and ABS system.

Kit features Wilwood's forged DynaPro 6 6-piston differential bore calipers in black powder coat. Calipers work in conjunction with large 12.88" diameter GT asymmetrical face slot pattern rotors. The kit comes with aluminum hats, mounting brackets and all necessary hardware for an easy, bolt-on installation. Optional SRP drilled and slotted rotors as well as red powder coated calipers are also available.

Wilwood BP-10 high performance street pads round out the kit. Other brake pad compounds, including those for off-road applications, are also available.

Stainless steel braided flexline hose kit, part number 220-12092 is also included.

All of Wilwood's performance brake kits are loaded with cutting edge technology built on decades of domination in world motorsports. These kits will not only exceed your braking demands, on and off the track, but also enhance the appearance of your Factory Five Roadster.
