

FOR IMMEDIATE RELEASE:

Wilwood Disc Brakes Announces New Classic Series Front Disc Brake Kits for 1955-1957 Ford Thunderbirds

Camarillo, CA • June 2015

Wilwood Classic Series front disc brake kits for 1955-1957 T-Birds provide an affordable way to update from Original Equipment (OE) drums on cars with 14" or 15" wheels. Dynalite Classic kits use 11.28" diameter one-piece rotor assemblies built specifically for the OE drum brake spindles. Dynalite forged aluminum 4 piston calipers, BP-10 compound *SmartPads*, mounting brackets, stainless steel braided DOT approved flex lines, and all the necessary hardware for a complete changeover are included in these "Made in the USA" kits.

MSRP starts at \$783.99.

Kit Part Number 140-12922

Founded by Bill Wood in 1977, Wilwood Engineering has been expertly designing and manufacturing high-performance disc brakes in the USA. Engineered and rigorously tested for the track, Wilwood brakes provide unsurpassed quality and performance with sleek, modern designs. Wilwood has dominated the motorsports arena for decades, making their street market brakes among the most technologically advanced around.
