

FOR IMMEDIATE RELEASE:

Wilwood Racing Releases Reverse Floor Mount Trunion Brake & Clutch Pedal Assembly

Camarillo, CA • January 2025

Wilwood Racing has engineered two new reverse floor mount brake pedal assemblies, one with a standard bias adjuster Balance Bar and the other with a precision Tru-Bar. Both models incorporate an adjustable clutch pedal assembly.

The dual pedal assembly reverse mounts three master cylinders facing inboard and below the flooring. Traditional flange MCs mount at a 45° angle to accommodate fluid lines plumbed to remote reservoirs. Perfect for Wilwood's **Compact Remote Flange Mount** master cylinders (available separately).

Both forged aluminum pedal arms allow for mounting the horizontally adjustable foot pads in three vertical positions to fine-tune the pedal ratio (5.25:1, 5.62:1, 6.00:1) for better feel and performance. The clutch pedal incorporates an adjustable stop to limit travel for fine-tuning clutch engagement.

MSRP: starts at \$422.94

MSRP: starts at \$647.94
