

**wilwood**  
DISC BRAKES  
SINCE 1977

Bill Wood,  
Founder and President

*"If we don't have  
your vehicle's brakes,  
we will custom make them  
if we possibly can  
— and we usually can."*

## Meet Bill Wood of **Wilwood**

As an avid racer and car enthusiast, I founded **Wilwood** in 1977 with the mission to provide the best racing brakes available. Now, 37 years later, you will find **Wilwood** brakes at race tracks around the world including off road, oval track, drag racing, and land speed, just to name a few.

As our racing popularity spread, so did demand for our specialty brakes in **other industries**. We now manufacture for industrial, military vehicles, motorcycles, snowmobiles, golf carts – anything that needs to stop or slow.

At our foundation, **Wilwood** is a company made up of car guys (and gals). On any given day our parking lot will look very similar to a small town, local car show. We enjoy our cars and want to make sure you enjoy yours as well.

We are proud to offer **bolt-on kits** for many popular classics and aftermarket applications. If you would like to give your classic car the performance of modern disc brakes while maintaining its original integrity, call us. If we don't have your vehicle's brakes, we will custom make them if we possibly can -- and we usually can.

Sincerely,

Bill Wood,  
Founder and President

*Power. Control. Precision.*
